Final Call for Papers – Submission Deadline Extended

ASSTA and La Trobe University are pleased to announce the Thirteenth Australasian International Conference on Speech Science and Technology (SST2010). The conference will be held at the La Trobe University City Campus, Melbourne, Australia.

Paper submission guidelines and templates are now available from

<http://www.assta.org/sst/2010/>

Conference Themes

Submissions are invited for oral presentations. Submissions should describe original contributions to spoken language, speech science and/or technology that will be of interest to an audience including scientists, engineers, linguists, psychologists, speech and language therapists, audiologists and other professionals.

Submissions are invited in all areas of speech science and technology, but particularly in the following areas:

- Speech production
- Acoustic phonetics
- Acoustics of accent change
- Phonetics and phonology of Australasian languages
- Phonetics and Phonology of Australian and New Zealand English (PANZE)
- Speech prosody, emotional speech, voice
- Music and speech processing
- Applications of speech science and technology
- Speech processing for forensic applications
- Speech recognition and understanding
- Speaker recognition and classification
- Speech enhancement and noise cancellation
- Pedagogical technologies for speech and singing
- Corpus management and speech tools
- Contributions of speech science and technology to audiology and speech language therapy
